Giving down 40% or more

12 donors are still giving, and giving at least 40% less than last year. Between them that is \$5,840 less.

Donors who gave in both 2025 and 2026, where 2026 is at least 40% below 2025. Somebody who stopped entirely is counted as quiet, not as drifting.

Tobias Ashgrove	\$2,500 to \$500, down 80%	\$2,000

Recurring gifts that stopped

10 recurring donors have stopped, worth \$250 between them every time they used to give.

Donors whose file marks them recurring and whose last gift is more than 3 of their own intervals ago. Three intervals rather than one, because a card that failed last month is a card problem, not a lapse.
